St. Mary's Fall 2017 Coding Club

SILVER KNIGHTS ENRICHMENT

In Coding Club, you will learn to code your own interactive animations, stories and games using Scratch. Scratch is a fun and creative way to learn programming skills and computational thinking. If you're new to programming, we will teach you the basics; if you're an experienced coder, we'll teach you more advanced concepts. When you're coding with Scratch, the only limit is your imagination! Scratch is designed and maintained by the Lifelong Kindergarten Group at the MIT Media Lab. What will you create?

REGISTRATION
